#### 3.2. Competition Programme (attached)

The most actual competition programme is shown at the end of this document. Any official competition schedule will have indicated the version number and the date+hour it was printed. Latest version of the Competition Schedule is **V1.4 (printed 12 May 2016)**. The schedule can be subject of change.

##### 3.2.1. Qualification World Games (Compound)

For the compound archers this European Championship is of great importance, because in addition to European medals, tickets can be obtained for participation at the World Games of 2017 in Wroclaw – Poland. The World Games is organised every 4 years for sports which are not on the Olympic programme, but do have a relation with the International Olympic Committee. The best 3 men and women at this European Championship will be entitled to take part at the World Games of 2017. For further information about the World Games, sports and organisation, see: <http://www.theworldgames.org/>

#### 3.3. Practice

Official Practice will be on Monday May 23 at Highfields (3 hours for each division), shooting in ABC format. Shooting direction is North.

Recurve Women & Compound Men, 10:00

to 13:00

Recurve Men & Compound Women, 14:00 to 17:00

Qualification Round will have 3 ends of practice.

Target assignments will be available in the digital pigeonhole on Sunday evening & the Ianseo Website May 22, if we have the team email addresses, **and also at the Sport Info desks at the hotel.**

Practice field located just opposite the main field, will be available from Saturday 21 May afternoon up till and including Saturday 28 May from 09.00 to 15.00.

### 3.4. Equipment Inspection

Equipment inspection will be run following the program of the official practice. Each team will be called (in alphabetical order) and invited by the DOS to the dedicated place for the Equipment inspection in the competition field. All team members are required to wear their team uniforms. Also all spare equipment must be brought to the equipment inspection.

During the equipment inspection, we would like each Team Manager or Coach to ensure that their athlete's names have the right spelling.

The athlete's number will be given with the scorecard before the qualification round. When receiving the registration numbers, we would like each Team Captain to double check that each athlete has the correct athlete number.

The athlete's number must be worn on the athlete's quiver or the thigh facing the waiting line. During the equipment inspection, instructions on the use of the scoring handheld terminals (Damage HHT's) will be carried out if requested. We ask all the athletes and coaches to follow the OC volunteers and Judges' instructions in order to proceed with as few delays and as organised as possible.

### The Environment

We ask you to instruct your athletes to use the litterbins located in different areas of the archery venue. Please help us to keep the venue as clean as possible.

## Water

To help with environmental issues we would like to enforce the water bottle deposit system. With your accreditation you receive one bottle of water at the distribution point. You will only receive a new bottle of water by returning the empty bottle. If your athletes

lose the empty bottle, please contact the O.C. Abiding by this simple rule, we actively help to run the competition smoothly and in addition help to avoid useless waste.

## Non-smoking

This is a non-smoking event for the practice and official competition areas.

You can smoke at areas indicated close to the exit of the venue.

In Great Britain, smoking inside public buildings is no longer allowed; please use the designated areas outside. This also includes electric cigarettes, refer to book 3, Art.12.8.

### 3.5. Qualification Round (24 May 2016). Information on scoring

Qualification Rounds (recurve / compound), shooting 3 athletes per target ABC format, see schedule. Recurve 70m Round (72 arrows), Compound 50m Round (72 arrows).

The scoring system in use is Danage Hand Held Terminal in conjunction with IANSEO software.

The scoring in the Qualification Rounds will be done by the athletes. One archer will write down the score on the paper score sheet and another archer will score on the terminal. The third archer verifies that the correct scores are entered. The use of the Hand Held Terminal is mandatory. During the official practise your athletes will be asked to test the terminals and see if they understand the correct working. Terminals will be used during the Qualification and Elimination Rounds, but not in the Finals.

Please instruct your athletes to sign the score sheets before handing them back after each round, including total score, 10's and X's.

### 3.6. Individual Elimination / Mixed Team & Team Rounds (25 / 26 May 2016)

Each division will have three ends of practice in the competition targets when starting the first elimination of the day. If archers would like to have more arrows for warming up, the practice field will be opened from 09:00.

Matches will be run as fast as possible. Therefore the times indicated in the schedule are just a reference. Please be aware of that and follow the competition to be prepared when the match of your athlete could be scheduled. Only the start of the morning session and the

start of the afternoon session will be respected as indicated in the competition schedule V 1.4, printed 12 May 2016.

Divisions (RM, RW & CM) will start at 1/48, division CW will start at 1/24 on the 25 May and will complete 1/16, 1/8, 1/4 and 1/2 finals on the 26 May. Top 8 individual athletes will place themselves directly to the 1/16 finals. Athletes from 9th to 104th positions will shoot the 1/48 and 1/24 eliminations.

Consequently, the top 8 will join the winners of the 1/24 eliminations to complete the 1/16 elimination. There will be no alternating shooting. **No faces** will be changed as default and matches will start as soon as the field is ready. We will respect starting time at the beginning to the session and then run the competition as it goes. Therefore some matches could start sooner than the time indicated in the schedule. Please be aware and prepared for this. Byes maybe allowed (check schedule). In case of a bye, archers will be allowed to shoot in their own target, but no score will be recorded or allowed to be displayed and will be limited to three arrows per end and maximum of THREE sets for recurve and FIVE ends for compound.

Mixed Team Elimination will start at 1/8 finals, May 26, no alternate shooting and it will be run until the result of the 1/2 match. Gold and Bronze Medal matches will take place on the respective Finals day Compound Saturday 28 May and Recurve 29 May.

### Show Range Match Selection Procedure

During the elimination phases of the competition, when more than one match is run at the same time on the eliminations field of play, one match will be selected for the show range.

Team officials for the selected athletes will be informed, in advance, of the change of target by WAE or the organising committee representative on the field of play with enough time for the athletes to relocate for the start of the match with no delay to competition.

If no team official is available, the athletes will be informed directly. Athletes and officials must comply with match relocation for the show range.

The first match selected for the show range in each session of competition that has no breaks of more than five minutes will be decided based on one of the following procedures.

Procedure 1:

- The match featuring the highest ranked athlete competing in that phase.
- If highest ranked athletes have the same rank, choice at WAE or organising committee discretion.

Procedure 2:

- The match featuring an athlete chosen on request from internal or external media.

If possible within the competition schedule, the matches on the show range will be rotated. However, if time is restricted, the winning athlete will remain on the show range for their next match.

1. The winning athlete remains on the show range after the break
2. A new show range match is selected using applicable procedure.

The show range increases sport presentation and live camera production of the early stages of competition, offering more exposure to the sport and giving athletes a bridge to experience of competing in a finals field.

Athletes should be prepared to compete on the show range if selected during the event.

### 3.6.1 Recurve (Book 1, 4.5.1.4).

The set system will be used for the elimination in recurve up to and including the semi-finals, per class and division.

The elimination round in which the top 104 athletes are seeded according to their positions in the qualification round (Book 2, Appendix 1). They shoot a series of matches in groups, each match consisting of the best of 5 sets of 3 arrows.

### 3.6.2. Compound (Book 1, 4.5.1.5).

The compound match round will be used for the elimination in compound up to and including the semi-finals, per class and division.

The elimination round in which the top 104 athletes are seeded according their positions in the 50m qualification round (see Book 2, Appendix1). They shoot a series of matches in groups, all matches consisting of 5 ends of 3 arrows.

Shoot off in individual elimination (Recurve & Compound) is just one arrow closest to the centre (40 seconds of time).

## 3.7. Team Eliminations (25 May 2016)

For the team matches, there will be again three ends of practice in competition targets. For more practice please use the practice field.

Team elimination round on 25 May start at 14:30; will start with the 1/8 final up to 1/2 matches per class and division. There will be no alternate shooting.

Byes are allowed. In case of a bye, teams will be allowed to shoot on their own target, but no score will be recorded or allowed to be displayed. The teams will be limited to shoot 2 arrows per archer, as with the individual byes.

### 3.7.1 Recurve Team

Up to 4 ends of 6 arrows, 2 arrows per archer (70m, set system)

### 3.7.2 Compound Team

4 ends of 6 arrows, 2 arrows per archer (50m, cumulative scoring)

### 3.8. Olympic Continental Qualifying Tournament (26 May / 27 May).

#### Where and when?

Europe: European Championships Nottingham, 23-29 May 2016

#### How many places can be obtained in the continental qualifiers?

For Europe, 3 NOCs can obtain qualifications for the continent. The maximum number of places per NOC and gender is one. Thus, a country can obtain one quatum for men and one quatum for women, but not 2 men's or 2 women's places.

#### Which NOCs/Member Associations are eligible to compete in the Continental Qualifying Tournament?

All member associations of World Archery in good standing that have not yet obtained a place in that gender, can compete in the qualifying event for that region. Only NOCs that are member of that region (in this case Europe) can compete for the places. If the qualifying event is part of another event, such as a continental championship, then a separate elimination and finals round is required for the Olympic qualification tournament. In practice this means that the following countries are ELIGIBLE to compete in the European Qualifier:

#### Europe (European Championships 23-29 May 2016 Nottingham, Great Britain).

## 4) Technical Matters (TD + chairman of Judges)

### 4.1. Timing Control system

HHT (Hand Held Terminals) terminals are used during the Qualification and Elimination Rounds, but not in the Finals. The person responsible for the results is Mr Ardingo Scarzella (IANSEO Results & Technology Team).

Please note that as of April 1st 2016 the new article 14.4.1 of World Archery Rulebook 3 is in force:

Article 14.4.1: [...] Should a discrepancy be found in the sum total where:  
[...] one paper scorecard and one electronic scorecard are used; the total of the electronic scorecard will be used for total score, 10s and Xs on the following conditions:

- a total score has been entered on the manual scorecard so verification is possible;
- in case no 10s and Xs (9s for indoor) are entered on the manual scorecard, no 10s and Xs (9s for indoor) are registered;
- in case no total score is entered on the manual scorecard when it is submitted to the results team, then the athlete shall be disqualified (individual/team and mixed team where applicable).

It is important to notice that if an athlete is not entering the total score of the distance he will be disqualified, which affects also the team events, so please ensure your athletes fully

understand that the scorecards **MUST** have all the totals fully completed, with the 10's+X's and X count.

## 4.3. Rules that apply in this event
