Practice Field and Competition Field

The practice field is organized on the field (parking place) next to the Hotel gate, on soil. Competition Field is a football field with natural grass. The official practice and all competition and Finals will be organized there.

The Finals, on Saturday 22/4, will be organized as all warming up for finals, on the competition field. All Finals will have live coverage on the video-wall screen and on internet.

Competition Program (attached)

The latest competition program is published. Any official competition schedule will have indicated the version number and the date-hour it was printed.

Practice and Warm up

Official Practice (2,5 hours) shooting AB-CD format:

- Cadets: 09:30 to 12:00
- Juniors: 14:30 to 17:00

Warm up during all days of the competition will be organized 30 minutes before the Competition on the Field of Play except for:

- Individual ER for categories that are coming later into the competition will have practice during the match before theirs.
 - Mixed Teams, where practice for the starting matches/categories will last 20 minutes, while categories that are coming later into the competition will have practice during the match before theirs.
 - Team matches, where practice for the starting matches/categories will last 30 minutes, while categories that are coming later into the competition will have practice during the match before theirs.
- Non competing archers will be allowed to use the Practice field. The schedule is published. For Finals the competing athletes will have the warm up organized next to the Final field.

Equipment Inspection

Equipment inspection will be run following the program of the official practice. Each team will be called (in the English alphabetical order) and invited by the announcer to the dedicated place for the Equipment inspection on the competition field. Also all spare equipment must be brought to the equipment inspection.

All team members (archers and officials) should wear their team uniforms.

The correct spelling of athlete's names, as well as the correct date of birth in the archers' list will be checked during the accreditation.

The start numbers will be given at the warm up on the day of the competition (it will be distributed on the shooting line, in front of each archer's position). When receiving the registration numbers, we would like each Team Manager to double check that each archer has the correct "athlete number".

There are some late arrivals of teams; however we will try to publish the start list before the start of the Official practice, so archers can practice on their assigned targets.

There is no access to the Competition field for the Official practice before the accreditation is done.

Qualification Round & Information on scoring

Teams will find target assignments in the mail boxes at the hotel.

Shooting in qualifications will be conducted with 4 archers per target in AB-CD format.

For the qualification rounds, no faces will be changed after the practice arrows. Please instruct the archers to mark the arrow holes during practice.

The athletes will have double scoring from qualification round till individual bronze medal matches and the same is for team and mixed team competition: one electronic and one on paper scorecard. For each target, one athlete will enter the score on the paper score sheet; another athlete will make the electronic scoring.

All the athletes on the same target must verify that the correct scores are entered.

Please instruct your athletes to fill in properly the scorecards including total score, 10's and X's and sign the card before handing them back after each round.

In case of tied score on positions 8 when we have more than 32 archers in the category or on the position 16 for teams, a shoot off will be arranged at the last distance shot (1 arrow closest to the centre). Neutral targets will be used.

- Individuals: 1 arrow closest to the centre.
- Teams: 1 arrow each archer, all shooting at the same time (40 seconds). For Recurve 1 target face will be used while for Compound 3 target faces will be used per team (1 arrow per target face) and each archer will decide which target face to use.
- Mixed teams: 1 arrow each archer, all shooting at the same time (40 seconds), 1 or 2 target faces will be used per team (1 arrow per target face for compound) and each archer will decide which target face to use.

Individual Elimination Round

For the elimination rounds, no faces will be changed after the practice arrows. So please instruct the archers to mark the arrow holes during practice. Matches will start as soon as the field is ready.

We will keep to the starting time at the beginning of the session and then the competition will run as it goes. Therefore some matches could start sooner than the time indicated in the schedule. Please be aware of this and be prepared for it.

In case of Intent to Appeal or an actual Appeal, the times indicated on the Appeal form must be considered.

4) Technical Matters (TD + chairman of Judges)

Timing Control system

The Chronotir timing equipment will be used for timing with several displays on the competition field. On the practice field the spare Chronotir timing system will be used.

Results system

Inseo is the provider of the results. The scoring in the Qualification and Elimination Round will be done by the archers. One archer will write down the score on the paper score sheet and another archer will score on a terminal. The third/fourth archer verifies that the correct scores are entered.
The terminals are used during the Qualifications, Eliminations and Finals, but not during the Gold Medal matches on Finals day.

Rules that apply in this event

Practice and start of the competition

At other WA events practice shall be for a maximum of 45 minutes but may be less and the competition shall start as soon as possible.

Practice on the competition field during byes

Practice on the competition field during byes will be limited to three arrows per end and maximum of three sets for recurve and five ends for compound. If more than three arrows are shot by an athlete in an end after being warned by a judge, the athlete may be denied further practice on the competition field but any such violation shall not affect the next match.

Team members' nomination

A team shall consist of the highest ranked 3 (or 2 if a Mixed Team) athletes from the Qualification Round unless the team captain notifies the Director of Shooting or the Chairman of Judges in writing at least 1 hour before the start of that round of competition of a substitution of another athlete who competed in the Qualification Round. In case of substitution medals will only be awarded to the athletes that shot the Team round, not the Qualification Round. A violation of the foregoing will result in disqualification of the team.

Number of team officials

A Team Manager may be helped by other team officials (such as coaches, physiotherapists, psychologists, etc.). There may not be more than one team official on the field of play for each athlete competing at the time. However, the maximum number of team officials on the field of play at the same time is four. This may be increased by one official per category if the Member Association has athletes competing in more than two categories at the same time.
