

# RUN-ARCHERY

---

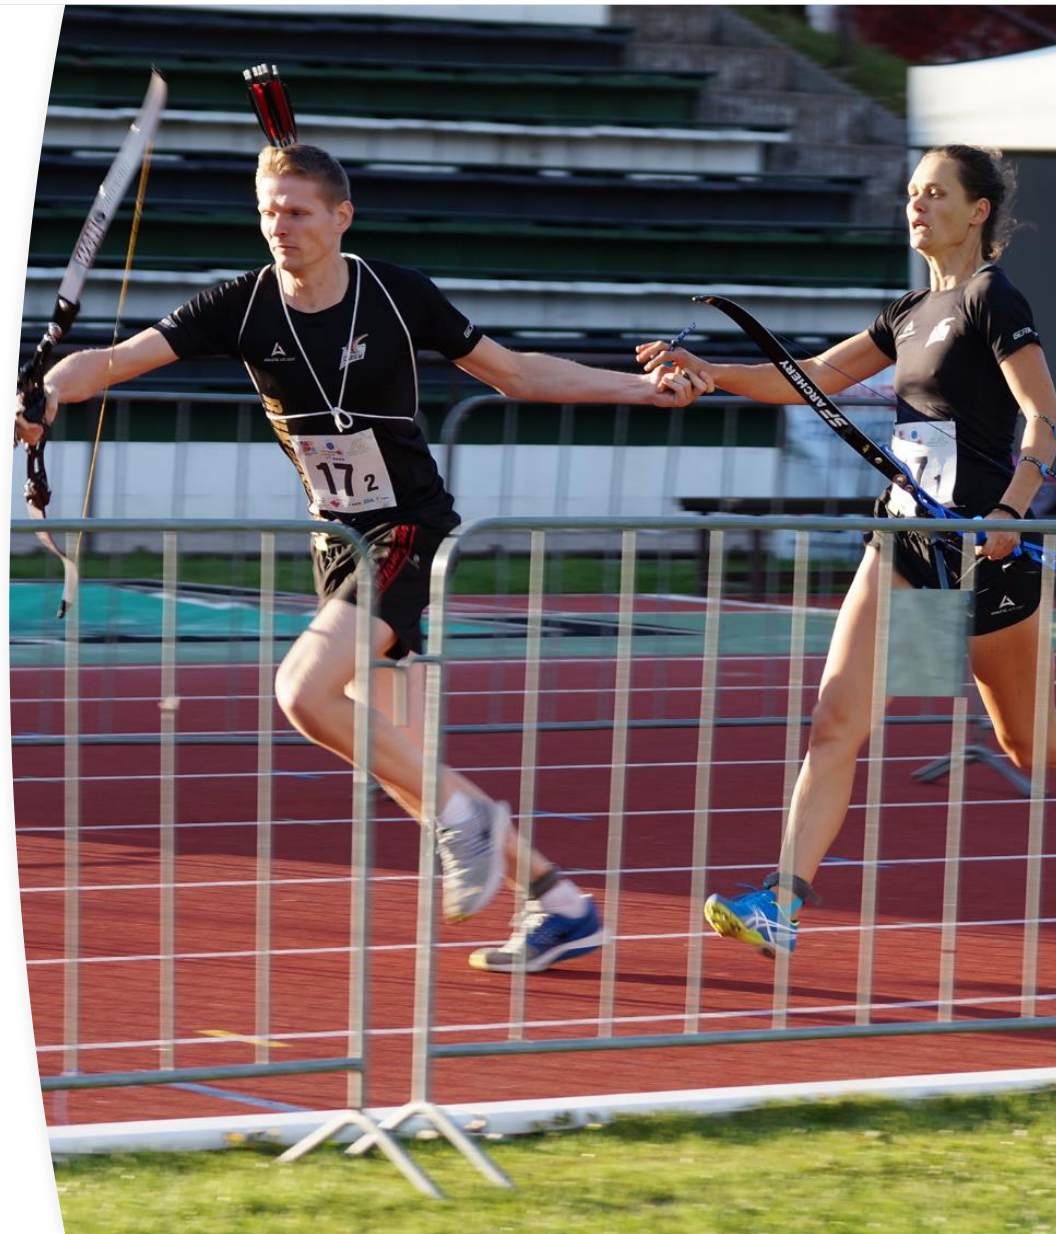

Presentation to CONGRESS  
World Archery Europe – June 2021

by Dominique OHLMANN

## — Why should you get interest for Run-Archery ?

Run-Archery is an opportunity of a new discipline for federations' members, and to catch new people.

- More dynamic
- Easy to start to practice (no need of equipment or learning to run)

# Why should you get interest for Run-Archery ?

From a media point of view, it can be as interesting as Biathlon:  
Short time sequences (less than 15' in sprint format)

**INTENSITY & DRAMA**

**SPECTACULAR SHOW**

## How to make Run-Archery grow in Europe ?

As we know, 6 Countries already involved in last Run-Archery EC

Czech Republic

Estonia

France

Germany

Netherlands

Russia

Rules, created by WAE, are now in the **WA rulebook n°5 chapter 34**.

However it is difficult for MAs to start Run-Archery by themselves.

World Archery Europe will give some assistance.

## **First assistance from WAE to MAs**

Rules in mother language to make it accessible

- It's up to each federation to translate the rules
- WAE can assist them to edit the drawings which are included in the rules in their own language, or give them the “native” file of the drawings

WAE documents to promote Run-Archery in their country

## **Other possible support**

### Judges Education

- Judges' knowledge is a good factor of assistance for clubs to organize competition
- When WAE will propose a seminar for Continental Judges, we could envisage to allow national judges to attend it
- Online courses
