International sport experience or background as an official	Field and 3D archery have been central to my life for almost three decades, giving me a depth of understanding that few people possess. I bring a rare combination of international athlete experience (2009 debut), international team management experience (2025 debut), long-standing sports governance expertise (Director at Archery GB 2016-2024), and a senior professional background in strategy and programme leadership. I understand both the technical realities of the sport and the strategic decisions required to develop it.
Function in Member Association	Archery GB member and Field and 3D Advisory Group member. Former Non-executive director, director for safeguarding and audit and risk committee (2016-24)
If you are successful in this position, please describe the ideas, projects and activities you plan to implement for World Archery Europe	<ul style="list-style-type: none"> ● I wish to strengthen the profile and visibility of Field and 3D archery across Europe by driving higher-quality media coverage, including broadcast, digital content, and coordinated storytelling around major events. ● I would support NGBs to elevate Field and 3D within their own strategies, ensuring these disciplines receive the investment, attention, and legitimacy they deserve alongside Target archery. ● I also wish to bring fresh, modern perspectives that appeal to younger generations, and work to ensure European international events are consistently high-quality, well-promoted, and widely recognised. ● My focus is on raising standards, increasing visibility, and accelerating growth across the continent. <p>This is a discipline I care about deeply, and I have the experience, judgement, and commitment to strengthen its future.</p>
