If you are successful in this position, please describe the ideas, projects and activities you plan to implement for World Archery Europe	<p>With 34 years in archery — as an athlete, coach, international judge, European Junior development committee member, and sports administrator — I bring deep expertise and passion to the role. As a national team senior coach and longtime collaborator of Olympic legend Vladimir Esheev, I've contributed to Russia's success, including three Olympic silver medals.</p> <p>I served 5 years at the Russian Sports Ministry, including as Branch Chief, and worked on the Sochi 2014 Winter Olympics. Today, I oversee a thriving federation spanning 70 regions, promoting recurve, compound, 3D, ski archery, kyudo, and traditional disciplines. Our national events attract 600+ archers, and we broadcast major matches on internet channel and TV.</p> <p>I believe that archery events should be more intensive, matches more emotional and attractive for the spectator. I see a big potential in traditional archers, who are not involved much in our official disciplines, ski-archery needs to be reformed and developed.</p> <p>I see some factors that from my point of view limit development of archery – those are all matters to discuss.</p> <p>Generally I see that world archery events made a significant transformation and progress. I'm eager to make my contribution to the success.</p>

If you are successful in this position, please describe the ideas, projects and activities you plan to implement for World Archery Europe	I would propose a more appropriate allocation of financial resources borne by WA toward WAE through a higher fixed financial contribution. To make use of WA sponsors in such a way that sponsor exclusivity does not penalize MAs with similar sponsors that may conflict with each other. I would also propose to introduce membership fees that MAs would also pay annually to WAE as financial support for the benefit of European Archery.
