World Archery Europe Executive Board Decision in relation to The Russian Archery Federation

Dear Presidents, dear Secretaries General, dear Chairs of Committees, dear all,

World Archery Europe operates in full cooperation and close alignment with World Archery. We reiterate our shared commitment to supporting all athletes and maintaining unity, fairness, and integrity across the European archery community.

Following deliberations, and in the best interest of the athletes, the World Archery Europe Executive Board has decided to remove the restrictions on Russian Archery Federation athletes, teams, and officials in events sanctioned by World Archery Europe from 1.1.2027.

This reinstatement is without prejudice to any applicable laws, host-country requirements, visa restrictions, or public authority instructions. WAE will continue to assess the situation where events in Europe are hosted and comply with any applicable national regulations.

World Archery Europe remains committed to supporting the Ukrainian archery community and all those affected by the ongoing war.

Hakan ÇAKIROĞLU
President
